U.S. TROOPS START FOR VILLA; ILL FEELING GROWS IN MEXICO

BOMBS DROPPED ON ESSEN, ON GUN WORKS AT GLADBACH AND ON THE CITY OF MUNICH

London Reports Long Expected Air Raids on Great German Munitions Plants, 170 Miles North of All the French Lines at Verdun.

LONDON, March 15.-Allied aviators have raided Essen, home of The elect atorm the Krupp gun works, according to dispatches received to-day from Amsterdam. Other air squadrons are said to have attacked Munich, capi- vice. The road struggled tal of Bavaria, and the city of Gladbach.

Six sheds at Essen are reported to have been destroyed.

The news aroused great enthusiasm here. Since the beginning of the war aeronautic experts have been urging a great allied aerial raid on The Krupp works at Essen, which lies about 170 miles north of the French lines at Verdun.

The Germans are known to have taken great precautions to guard gainst air raids both on Essen and on Gladbach, about 130 miles southwest of Essen, where German machine guns and munitions are manufactured in large quantities.

If reports of the air raid on Munich are confirmed, the aviators have made one of the longest homb-dropping expeditions of the war, at the longest this afternoon, Munich lies nearly 250 miles east of the French lines in upper Alsace.

man name of Munich is "Muenchen." It is possible that the Amsterdam the motors. An Evening World emcables to London meant to say that the cities of Essen and Macnehen-Gladbach, within a few miles of each other, were raided, but the translation dark tunnel one hundred yards west to English and the cable transmission made the messages read "Munich of the Nostrand Avenue station

ADVANCE FROM TWO POINTS ACROSS BORDER REPORTED: MEXICAN GENERAL SLAIN

Gen. Rojas Assassinated Trying to Pacify Mutinous Troops at Border Who Wanted to Invade U.S.-American Consul Quits Torreon.

PERSHING QUITS COLUMBUS: DODD MOVES FROM HACHITA

DOUGLAS, Ariz., March 15 .- Authoritative information was received at Camp Douglas to-day that a division of the American expedition had started from Culbertson's Ranch for the Mexican border.

The Second Cavalry, commanded by Col. George A. Dodd, was stationed at Culberson's Ranch, which is at Hachita, N. M., and has been ready for a quick move.

SAN ANTONIO, Tex., March 15.-Major Gen, Funston admitted his afternoon that it was possible an advance had been made by United States troops into Mexico and that he had not been told of it. He said that if any movement had taken place it probably was near Hachita, N. M.

EL PASO, March 15 .- Through the barriers of a strict military censorship comes the news that United States cavalry probably moved into Mexico at two points early to-day, and that while Carranza Generals and other commanders are apparently desirous of obeying the orders of the First Chief and aiding our soldiers, the rank and file of the Carranza forces in Northern Mexico is unruly and resentful,

Col. Rojas, Carranza commandant at Ojinaga, on the border about 125 miles southeast of here, was shot and killed by his own men last Justice Greenbaum Refuses to night. Ojinaga is across the Rio Grande from Presidio, Tex., where United States troops are quartered,

A lot of Col. Rojas's men mutinied and broke camp with the intention of crossing the border and attacking Presidio. Col. Rojas gamely sought to quell the mutiny, but was shot at from several directions and preme Court proceedings brought fell riddled with bullets. The assassination of the commander had the against them to prevent their parad- effect of sobering the soldiers and the raid they contemplated did not

Uneasiness in military circles here arises from the confirmed report from Torreon that the American Consul, A. L. Williams, has turned over the consulate to the British Vice Consul and is either on the way or preparing to go to Monterey with between forty and fifty Americans,

It is known here that Consul Williams has not been notified by the Government to leave and his sudden plans for departure with all the American residents of the city is an indication, it is believed here, that the Carranga commanders in that vicinity are doubtful about their ability to give buty and standardization of mas J. Kennedy, County President of the protection to citizens of the United States.
